A Village Blacksmith Saved His Little Son's Life.

Mr. H. H. Black, the well-known village blacksmith at Grahamsville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so had have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Warren & Co.

Several eminent men from eastern cities are expected to be present and contribute to the success of the meeting.--Ex.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

Its Own Track to Denver.

"After repeating the old story from the Chicago Tribune to the effect that the Rock Island would purchase the El Paso & Northeastern or secure control of it through a lease, the Denver Times says:

"For the past year it has been generally known in railroad circles in the west that the El Paso & Northeastern railroad was being built for the Rock Island. The terminus of the line is at Captain, but the line passes within about fifty miles of White Oaks, Carrizosa being the point at which the connection would be made. The connecting link to be built between Liberal, Kansas, and Carrizosa or White Oaks, New Mexico, would be only about 175 miles in length and when completed would give the Rock Island the most direct route from Mexico to Chicago, nearly 400 miles shorter than any other line. It will also place the Rock Island in competition for Denver machinery traffic for Mexico, which they could handle over their own line to El Paso."

via Belleville and Hornington, Kansas.

This movement toward immediate extension to the southwest would give color to the reported intention of the company to lay their own track into Denver."

"This story that the Rock Island has purchased the E. P. & N. E. has been most emphatically denied by President Eddy of the latter road. Mr. Eddy several days ago authorized the News to say that the El Paso & Northeastern will not be leased to any one and that it is not for sale. Instead of being built for the Rock Island the El Paso & Northeastern was built to develop the large coal, mineral and timber properties owned in New Mexico by the men who built the road. The line is paying a handsome interest on the money invested and it is not for sale."

—When in El Paso, stay at the Orndorff, the only first class hotel in the city. Rooms single or en suite. Elevator, electric light, hot and cold water, baths and all modern conveniences. Fire proof.
